HTML STRUCTURE

This menu is based on a responsive layout and built using HTML5 and CSS3.

The file which contains all the HTML structure is **index.html**.

```html
<div class="circular-animation flat-color">
 <div class="loader"></div>
 <div class="main">
     <div class="circle">
         <div class="description"></div>
         <ul class="triggers">
             <li class="trigger-item">
                 <a href="link-to-your-page"><i class="icon-user"></i></a>
             </li>
             <li class="trigger-item">
                 <a href="link-to-your-page"><i class="icon-briefcase"></i></a>
             </li>
             <li class="trigger-item">
                 <a href="link-to-your-page"><i class="icon-twitter"></i></a>
             </li>
             <li class="trigger-item">
                 <a href="link-to-your-page"><i class="icon-linkedin"></i></a>
             </li>
             <li class="trigger-item">
                 <a href="link-to-your-page"><i class="icon-github"></i></a>
             </li>
             <li class="trigger-item">
                 <a href="link-to-your-page"><i class="icon-google-plus"></i></a>

                 <a href="link-to-your-page"><i class="icon-envelope-alt"></i></a>
             </li>
             <li class="trigger-item">
                 <a href="link-to-your-page"><i class="icon-file-alt"></i></a>
             </li>
         </ul>
     </div>
     <div class="main_info">
         <h1>Your App Name</h1>
         <p>App Name Title.<p>
     </div>
 </div>
</div>
```

How to change Menu Color

Circular Menu contains three types of colors: flat color, dark color and cool color.

| Cool color | Flat color | Dark color |

By default, color of menu is flat color, you can change it very easy, find the same <div> tag as the animation and change color class, like this:

```
<div class="scaling-animation flat-color">
<div class="scaling-animation dark-color">
<div class="scaling-animation cool-color">
```

How Change Menu Links
